

KRÄUTER WURM-EX

Plant-based support

A plant-based solution that is gentle towards the body.

Herbal Worm-Ex helps the body protect itself against worm infestations and may also be used in acute cases.

- no chemical ingredients
- only natural ingredients
- no preservatives
- 100 % organic herbal extracts

Endoparasites (worms) live in all cats and dogs with the animal acting as an intermediate or final host. When the animal is treated with a chemical deworming treatment, a large amount of toxins enters the organism which may cause massive damage. They damage the liver, the gut flora and compromise the immune system. Frequent use of chemical deworming treatments lead to resistance against the products which ultimately become ineffective.

Instructions

In the event of severe or persistent worm infestation, first consult your vet.

How to recognise a worm infestation?

Typical signs of a worm infestation include a bloated stomach, symptoms of deficiencies and unintentional weight loss despite a healthy appetite, diarrhoea, vomit-

ing, constipation, bloating and rubbing its bottom along the ground/"scooting"

Labs are able to test for the presence of worms - these require the submission of several faecal samples.

Anifit tip: Worms are most active during the full moon. We recommend to begin the treatment one day prior to the full moon.

Feeding recommendation

Mix the herbs into pet food.

Puppies/kittens from 8 weeks of age: ½ teaspoon daily

Dogs/cats: 1 teaspoon daily

Dogs weighing more than 20 kg: 2 teaspoons daily

7-day course, repeat after 3 weeks.

Do not give to pregnant animals.

Info

Pregnant bitches should avoid a number of herbs during their gestation period. Examples include parsley, lovage and sage. Wormwood stimulates the uterus and may induce premature labour. Therefore, as a matter of precaution, the use of Worm-Ex is not recommended for pregnant animals.

Ingredients

Organic carrots: The especially abundant potassium salts have a rapid diuretic effect while the essential oils are responsible for the anti-worm properties of the product.

KRÄUTER WURM-EX

Plant-based support

Organic pumpkin seeds: Vitamin A and C, enzymes and numerous micronutrients help to support digestion and aid the passing of waste while also having a calming and anti-worm effect (esp. against tape worms).

Organic oregano: has an antibacterial effect. Thanks to its essential oils and bitter substances, it has a positive effect on the organs' involvement in digestion.

Organic ginger: kills worms, kills germs, promotes digestion.

Organic caraway: contains resins, fatty oils, tannins, flavonoids and protein, has an antibacterial effect on the gut. It settles the stomach in cases of anxiety or irritation allowing for better digestion. Caraway also supports the function of liver and gallbladder and eliminates the unpleasant bloated feeling following a meal.

Organic turmeric, "India's holy plant". It has many positive properties: besides its worm-killing and antibacterial properties, it has an antioxidant, immune-strengthening, calming and spasmolytic effect on the muscles of the stomach and gut.

Organic yarrow flowers have cholagogue and spasmolytic properties.

Organic flower pollen is a rich source of natural vitamins, minerals, proteins such as amino-acids, enzymes and co-enzymes. They contain natural antibiotics and antihistamines and have significant antioxidant properties.

Organic coconut flakes contain lauric acid (the main fatty acid in coconut oil) and have an antimicrobial effect on bacteria, fungi (such as yeast) and viruses. The high concentration of fibre has a mild laxative effect.

Bio-Wermut: is one of the most important bitter herbs used to strengthen the digestive system and also kills worms.

Ingredients

Organic carrots, organic pumpkin seeds, organic oregano, organic ginger, organic caraway, organic turmeric, organic yarrow flowers, organic flower pollen, organic coconut flakes, organic wormwood

Analytical components

24.80 % raw protein, 9.39 % raw oils and fats, 7.63 % raw fibre, 7.52 % crude ash

Certifications

Our company (Provital GmbH) is certified organic by BCS Öko Garantie GmbH (DE-ÖKO-001) and certified by TÜV SÜD Management Service GmbH according to ISO-9001.
